SEMI-TRANS PISTON PUMP

The Semi-Trans is capable of transferring semi-solid manure long distances with low power requirements. The 7.5HP hydraulic power unit makes the Semi-Trans an excellent choice for use with single phase electricity or anywhere that power availability may be limited.

Semi-Trans pumps are always mounted in a dry pit. This may be beside a reception pit with a suction tube through the wall, or the pump can be equipped with a hopper inlet for use with cross-gutter cleaners. Depending on the type of manure and the distance to the storage, the output is either 16" or 12" diameter SDR 26 PVS pipe. Steel 16" pipe is also available.

Semi-Trans pumps are intended to use with semi-solid manure with no long bedding. Short bedding or sand bedding are acceptable. When using sand bedding it is important that no water be added to dilute the manure. A high water content will cause sand to settle in the transfer pipe and rapidly block the pipe. Higher water content is acceptable with organic bedding.

Visit our website for more information on these Jamesway products!

MANURE SYSTEMS:

- Alley Scrapers
- Vertical Electric Pumps
- Electric Prop Agitators
- Vertical PTO Pumps
- Piston Transfer Pumps
- Cross Gutter Systems
- Barn Cleaners

MANURE APPLICATION:

- Non-Steer Spreader Tanks
- Steerable Spreader Tanks
- Injection Systems
- Truck Mount Tankers
- Lagoon Pumps
- Prop Agitators
- Loading Pumps

FEEDING SYSTEMS:

- Silo Unloaders
- Feeders
- Conveyors
- Hammer Mills
- Power Feed Carts
- Bedding Choppers
- Automatic Batch Systems

Jamesway Farm Equipment products are designed in conformance to ASAE Standards S354.4 "Safety for Farmstead Equipment" and S318.15 "Safety for Agricultural Equipment". Some photos in this brochure have safety shields removed or open to show additional detail on equipment features. Never operate equipment without safety shields in place. Jamesway continually updates and improves products and reserves the right to make changes in the design, specifications, and to add improvements to our products, without incurring an obligation on equipment purchased.
